## EXPERIENCE/ PROJECTS

---

### Shibli Hostel Website

- A website made for a boys hostel business using **HTML, CSS** and **JS**. [Site link](#)
- Used **bootstrap carousels** for displaying testimonials.
- And **netlify** for hosting the business website and **netlify forms** for the contact form.

### Weather app

- Made a **web app** for displaying weather of specific locations entered by user. [Github link](#)
- Used **HTML, CSS** and **JS** and did Server side rendering using **Node.js/ Express.js**.
- And used **Fetch API** to fetch data from the OpenWeatherMap API.

### Tincat

- Just made this for fun: a stupid clone of **tinder for cats**. [Github link](#)
- Made using **HTML, CSS and JS** along with **Bootstrap** for the carousels.
